

Staying safe procedure for viewings

Confirming a viewing

When we speak to you to book a viewing, you will be asked if you or anyone in your household are showing symptoms of coronavirus and if you are self-isolating.

Viewings will only be arranged as long as everyone is symptom-free and not self-isolating.

If you or members of your household develop symptoms or are notified to self-isolate after the viewing is confirmed, we ask that you contact us to postpone the appointment.

Staying safe during a viewing

Face coverings are required to be worn by all parties present during the visit along with using hand sanitizer before and after the visit.

Our Accompanied Viewing Representatives will continue to wear a face covering and maintain social distancing.

There are no limits on the numbers of people who can attend a viewing, but it is advisable to keep numbers to a minimum.

Viewings can be attended by people from different households, but again, it is advisable to keep the number of households attending to a minimum.

The Government guidelines on home moving during the outbreak are continually being updated in terms of safe practices. We encourage you to seek further clarification on the Government website - [click here](#).
